FOR PRESIDENT, BENJAMIN HARRISON

> OF INDIANA. FOR VICE PRESIDENT

LEVI P. MORTON,

OF NEW YORK.

HARRISON AND THE SOLDIERS. In all the past speeches of Benjamin Harrison he has shown himself to be a true friend to all int-rests of the United States, and has dodged no issues, coucealed nothing and his nothing to extenuits or retract. In a recent speech to the Grand Army of the Republic he spoke of President Cleveland's maulting the pension vetoes, in the following language: "Some national questions of interest turn upon the coming election. Soldiers. I believe that the question whether your fame and honor shall be exalted above the fame of those who fought against the flag, whether the rewards of your services shall be just and liberal and the care of your disubled comrades ungrudging and ample, depen is upon the election of a Republica. President in 1883 Fin the flist time it the history of the American nation w have had a President who, in desire. with the veto posis, has used it not only to deay relief, but to in peach the reparations of the mon who in that a -aib . for him to do a Pres fert of the Tan d S ate The vote if sages of Mr Cevel-ni sont to during the fast Cougless, were, many of them, timped with potentious acrows. He vetord what is lead d the dependent pension bili What is the principle of it? I helieve that the first bill introduced in Congress embodying the principles of that bill was introduced by me. It was prepared in view of the fact that Ocngress was being overwhelmed with private pension bills for men now disabled and unable to maintain themselves, who could not, by proof, connect their disability with their army service. I said let us make the limitations of the pension law wider and my sid of taking in these men onclass at once, and hence this bil'. Some men succred at it; said I was simply trying a buncombe game with the soldiers. But, gentlemen, the general principle of that bill have come to stay. It has, with slight modifications, reclived now the vote, almost nnanimous, of the Grand Army of the Republic. That will be laid before Congress at its approaching session What is the principle of it? Why, it is something like the old rule we had in the army; as long as a man was able he marched and carried his own gun and editorially says: "It would hardly be knapsick, but when he got nart or sich and fell out, we had an ambulance to clearly or more strongly. The arguput him in; and that is the principle em. | ments which Cleveland uses are those bodied in this bill-that we, the sur which Cable used to employ forty-five vivors of the late war, as long as God gives us strength and health, will march in this column of civil life, making our purely free-tride arguments, and as own living and carrying our own hurden; but here is a commade faling by the way, sickness, casualty-not bis own fault-and he has to fall out; we give them their right name." want the great national ambalance to take him in. That was the idea of this bill. Is it not just? Is it not as much as the soldiers can now hope to secure? Why, my countrymen, somebody must care for timese veterans who stood up amid shot and shell and sabre stroke, but cannot now trace their infirmities to the army by any satisfactory proof. They have fought the battle of life man | SATURDAY MATTINEE! fully since. They are dependent on their work for a living, and they cannot work Somebody must take care of them; the expense cannot be avoided unless you kick the old veterans out and let them die on the roadside. Somebody must take care of them, and the simple question is, shall they be cared for as paupers in the county poorhouse or shall the great nation they served and saved care for them as soldiers? I prefer the latter. I want the genera-tions coming-on to know that it is safe late to onds to abandon owil pursuits, throw wealth behind you and yourself into the bloody

conflict for the nation's life; that republics are grateful, and that its soldiers | The Austrian Conjurer and Exposer of Spiritualism will be taken care of." The Democratic majority in the House LIGHT SEANCE! Tuesday adopted the clause in the Mills

bill to reduce the tariff on raising from 2 to 12 cents a pound. The two Callformia Democratic members voted in favor of the reduction. California voters should remember this.

"The only benefit England ever receives from Irishman is when they emigrate to America and vete for free trade. '- London Times

# WHAT'S THE MATTER WITH YOUR BLOOD?

As much blood goes through the kidneys as goes through the heart.

There is nothing startling about this fact except it be a revelation. Many people have but a dim idea of the real work of the kidneys. They not only drain the water from the system, but also the poisonous matter which that water holds in solution to carry out of the system. Over to carry out of the system. Over half the time, however, the kidneys

fail to do this work!
What is the result?
Gradual failure of strength and health and eventually death by Bright's Disease or some unsuspected

kidney disease.

But particularly in the spring of the year, when one's blood is filled with poisonous waste, as it invariably is at that time, you feel depressed, tired, languid, do not seem to have any disease, but your system does not respond to the genia warmth of summer and spring as formerly. You had better look out!

The kidney poison is accumulating in the blood. Tonics won't do any good, they simply treat effects. You

in the blood. Tonics won't do any good, they simply treat effects. You can only secure a radical, thorough renovation of the system by the prompt use of Warner's safe Cure, which is the only-reliable, scientific specific for the blood, because it is the only known specific in the world for the kidneys, which are the only great blood purifiers.

GEO. F. RIDGEWAY, 98 Murison St., Cleveland, O., Ex-Deputy Sheriff, from uric acid poisoning of the blood became, at times totally blind, and was troubled with great glddiness. In 1882, after suffering for many years, and being distressed beyond measure, he theroughly purified his blood by means of Warner's Safe Cure, and says. "I have never had a day's trouble since, and have fully recovered my health. Warner's Safe Cure saved my life."

REV. J. P. ARNOLD, of Camden, Tenn., in '78 and '81 was grievously afflicted with many abscesses, caused by kidney poisoned blood. The abscesses were alive for many months and caused gret distress. After thotoughly purifying his blood with Warner's Safe Cure in 1882, he reported that in 1883 he was atong and well, over 71 years of age, and able to preach regularly

CAPT' W. D. ROBINSON, United States Marine Inspector for the chain of takes, residence Buffalo, N. Y., in 1881 had a slight eruption on his hands. It so in spread to his face and he was almost blind. His body was covered with light, flaky scales. His skin itched excuruationly, For two years he gradually grew worse, trying almost everything imaginable. In 1883, after having given up hope of recovery, he began using Warner's Safe Cure. "Twenty bottles," he says, "completely cured me, and to day I am strong and well as ever.

JAMES WIGHT, 296 Fifth Ave., New York suffered for years from inflamms.

JAMES WIGHT, 296 Fifth Ave., New York suffered for years from inflammatory rheumatism—a blood disorder—but in 1888 was fully restored to health by Warner's Safe Cure and remains well

The four above cases are as good as a million. They prove what is stated, that the organ that removes the impurity from the blood most effectually is the kidney, and for this when impaired there is but one sound, rational method of treatment.

Dr. Dio Lewis, who was opposed to the use of medicine it.

thought so nightly of this remedy that he said if he had a serious kidney disease, he should use it.

Ask your friends and neighbors what they think of it.

In the spring of the year, when de-bility is so prevalent, and the seeds of disease are sown that may have a fatal blossoming before the fall, the prudent man and woman will give the system a thorough cleaning and the system a thorough cleansing and purification.

The Lindon Times having a letter from President Oleveland in its possession, after quoting passages from it, possible to put the free-trade case more years ago, and which any English trader would employ now. They are such we are glad to see Clevel and using them, though sorry for the popular infatuation which makes it dangerous to

Dockstader's Minstrels left for Salt train, leaving Dick Jose behind to spend of stamps in operation on Confidence Comple of days with his friends. Dick ore. will leave here this evening to re-join the company.

News has been received here of the denth Wednesday in Los Angeles, Cal., of Mrs. J L Smith, recently of Genoa and formerly of Reno. The deceased was a daughter of W. J. Marsh, an old resident of Reno.

THE SAME OLD STORY .- Every body who visits Reno falls in love with its climate and the Truckee river, even the theatrical people, who have opportunities of seeing and visiting all over the world. Mrs. D. P. Bowers was infatuated with the climate and our little river, and spent four or five days here before "doing" Tahoe. All of Dockstader's troupe thought the country and climate grand, and Mrs. D. tried to induce her husband to buy a town lot here, and if the proprietor of this paper had been in town the chances are that | 834 08. B. & B. ELECTION .- At the annual meeting of shareholders in the Best & Beicher Mining Company, held July 9th, 89,030 shares were represented and the following officers elected for the ensuing year: George R. Wells, President; Robert Sherwood, Vice-President; Jos Marks, H. Zadig and Sol. Hydenfeldt, Sr. Trustees. At a subsequent meeting of the Trustees, D. B. Lyman was reelected Superintendent, and L. Osborne Secretary. The Superintendent's report for the year ending June 30th, was submitted. It contains a detailed account of operations and notes an important connection made with the Con. Cal. & Va. 1,500 level to afford an avenue of escape for the miners through either shaft in case of accident.

NEW U. S. MARSHAL,-The Enterprise, of yesterday, contains the following: James Moore has received a dispatch from Justice Field notifying him of his appointment as U.S. Marshal for Nevada, stating that letters and papers were forthcoming. CURTAILMENT OF CRUSHING POWER.

The rapid shrinkage of the Carson river flow has entailed a general hanging-up of stamps in mills operated by that stream. The auxillary steam power at the Brusswick will be brought into Lake on yesterlay morning's overland requisition to keep the full complement

The curtailment of crushing power will not necessarily entail a suspension of the payment of regular monthly dividends in either of the three Comstock mines now in that list. The 80 stumps in the California mill will be ready to drop on Con Cal & Va, one by the 1st of August or place those hung up in the Eureka. The hanging up of stamps in tast mill will probably reduce the bulhon yield of the mine for the current monta to one-baif of that of June, but there is a samplus in the company's treasury ample to pay the July dividend and to leave a round sum to carry over to the credit of the August account.

CON. CAL. & VA. JUNE BULLION. The Con. Cal. & Va. Mining Company has received its closing shipment of bullion on June account, amounting to 16 a total product for that month of \$405,-

There was worked at the Eureka and Morgan mills during June a grand total 13,030 tons of ore, yielding bullion valued as above. The gold contained in this builion was valued at \$197,935 29 and the silver at \$207,898 79, the proportion being unusually even. The averand all he caught was a few pieces of age yield of the ore per ton in bullion drift-wood. He said he never opjoyed was \$31 14 and the average assay value

The activity in Comstock shares, heretofore a feature of the monthly pay-days Truckes river for beauty will be hard to failed to materialize during the July paydays, as but a slight portion of the \$257,-000 so disbursed found its way into local broker's safes, except that required to keep margins covered.

A SATISFACTORY TEST RUN.

The test ron of Hully's Six-mile canyou mills on fillings from the workings of the Gould & Curry mine, thrown over the wasts dump on account of its being too luw grade to be profitably handled by the company has proved satisfactory. The two mills crush about 20 tons daily tioned as follows: on an average. This could be increased to 30 tons if the pan room in the mills was adequate to handle that amount of

As the test run has proved satisfactory and as there is a large amount of these low grade fillings on the waste dump it is presumable that the pan capacity of the two five-slamp mills will be increased to take all the pulp the stamps are capable of crushing when run to their bighest speed.

Attempt to Capture the "Siftlags" by the Man Who Has Never Got Left.

The happy Christmas editorial of the Siltings had just-received its finishing touch, the devil's clamor for a copy had finally ceased, and the wearied scribe, after depositing the paste-brush in its usual place, sat tilted back in one of the easy chairs found in, every printing office, pleasantly wrapt in the rumination of his own thoughts and the durling smoke of a fregrant Havana. "Empty, sir; empty," and the burn of "Cradle's Emply, Baby's Gone," was heard in three corners of the room. That box is full and I guess you are too." replied the astonished scribe. "Neither, sir; neither; look for yourself," blandly replied the stranger, and throwing open the cigar box, he revealed an emptiness atmost paralyzing to the newspaper man. A hasty glance at the table also showed the disappearance of bars, valued at \$68,806 80, and making three bottles of whiskey, which the reporter had intended to present to a poor family the next day. I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

### PLATFORM AND SOLUTIONS.

The Republicans of the State of Nevada in convention as-embled again express their loyality to the principles of the Republican party, which have made the country so great and properous during the lest quarter of a century.

Resowed, That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the doutor, and paralyzes industry and enterprise.

Resolved That he present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without researd to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest is subversive of the rights of the people propersalve, unjust, and should be repudiated.

Resolved, That a financial policy whereby both gold and alliver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

Resolved, That the attempt to substitute National bank notes, costing the Government to is use money, and which has raandulently demonstrated alliver and selzed the revenues of the Government to is sue money, and which has raandulently demonstrated alliver and selzed the revenues of the Government to is sue money, and which has raandulently demonstrated alliver and selzed the revenues of the Government to is sue money, and which has raandulently demonstrated alliver and selzed the revenues of the Government to is sue morely and which has readulently demonstrated to air peopl

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital. and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily The Healthiest Town! and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the smal fruits. Reno Wheat took the first prize at the great
